

1. The name of all group members: Vivek Kunapareddy, Yuan Cheng
2. Instructions for compiling and running the program:
  - Run code without debugging in visual studio
  - Please enter entire filenames for input Eg: "MobyDick.txt", "PeterPan.txt"
  - Please enter only single letters when given choice Eg: "Y", "N"
  - All text files required must exist in same folder as .exe file which was compiled
3. Contribution: All the programming was done together as pair programming.
  - Struct design was done by Vivek
  - Debugging was done by Yuan
  - Rest of the logic was divided evenly
